

SHERRIE PALM

THE VOICE OF WOMEN'S PELVIC HEALTH EMPOWERMENT

VAGINAL/INTIMATE HEALTH ACTIVIST, AWARD WINNING AUTHOR
GLOBAL SPEAKER, PELVIC ORGAN PROLAPSE KEY OPINION LEADER

ENGENDERING THE NEXT SIGNIFICANT SHIFT IN WOMEN'S HEALTH DIRECTIVES

All aspects of women's health, including vaginal, intimate, and pelvic health, must be talked about out loud. Millions of women suffer in silence with embarrassing symptoms that have been shrouded in silence for thousands of years despite medical documentation.

"Continual evaluation of patient voice is the core of healthcare evolution." Sherrie Palm

Sherrie Palm provides presentations that share the facts with industry, healthcare, and lay women audiences, carving a trail to de-stigmatize women's vaginal and intimate health concerns that impact over 50% of women. Recognizing a need to shift the global view of the last remaining stigmatized aspects of women's health, Sherrie Palm takes steps to pioneer change. Cognizant of the diverse and sensitive needs of her audience, Sherrie delicately places all the cards on the table to disclose aspects of vaginal and intimate health rarely effectively discussed. Sherrie's capacity to respectfully and compassionately answer all questions posed during speaking engagements endears her to the audience.

Sherrie Palm is Founder/CEO of Association for Pelvic Organ Prolapse Support (APOPS), author of the award-winning book *Pelvic Organ Prolapse: The Silent Epidemic*, an internationally recognized women's vaginal & intimate health advocate, and a POP Key Opinion Leader.

"Sherrie Palm is an army trapped in a woman's body and that army is ignited. She is the passionate and tireless voice of the intimate problems that afflict over 50 million women. She wields amazing influence within the medical community, the medical industry and patient groups. I know. I've witnessed it. If you want relevance, connection and inspiration with every woman in your niche, you want Sherrie."

Marco Pelosi III MD, FACOG, FACS, FICS, FAACS

"I have never met a person as dedicated to pelvic health awareness as Sherrie Palm. Sherrie's commitment to de-stigmatizing sexual and pelvic health has created a strong current that is now being felt around the world. The wave of change is coming and its strongest voice is Sherrie Palm".

Suny Caminero, MD

"Women affected by POP are entitled to their healing, and I'm so glad Sherrie is empowering women with her work."

Senator Lena C. Taylor

"Sherrie Palm's crusade to break women free of their silence and begin a dialogue about pelvic organ prolapse is inspiring."

Karen Heller, Associate Producer PBS Second Opinion
